Santhosh HG

+91 7892785895 santhosh@thetapacademy.com santhosh-hg

Summary

Senior Technical Trainer & Developer with **2+ years of experience** training and mentoring **50,000+ students** across **800+ engineering colleges** in **3 states**. Proficient in **Java Full Stack, Python Full Stack, Data Structures & Algorithms, Artificial Intelligence, Machine Learning, and Agentic AI**. Experienced in **hands-on technical workshops, mock interviews, coding assessments, placement training, and campus programs**, including **5,000+ technical interviews and assessments**. Skilled in simplifying complex concepts through **live coding, practical examples, and project-based learning**, with a strong focus on industry readiness.

Experience

TAP Academy (EdTech) **August 2024 – Present**
Senior Technical Trainer & Developer *Bengaluru, India*

- Mentored and trained **50,000+ students** through large-scale technical programs covering **Java, Python, Data Structures & Algorithms, Full Stack Development, and Problem Solving**.
- Represented TAP Academy across **800+ engineering colleges** through offline campus programs, delivering **technical workshops, coding sessions, and placement training**.
- Conducted **5,000+ technical interviews and assessments** for students and professionals, evaluating **programming, DSA, Core Java, problem solving, and interview readiness**.
- Conducted **mock interviews, coding assessments, and problem-solving sessions** using platforms including **LeetCode and HackerRank**.
- Delivered hands-on training in **Java Full Stack and Python Full Stack**, covering programming, OOP, backend development, databases, APIs, and practical development workflows.
- Designed and delivered workshops on **AI, Machine Learning, Generative AI, and Agentic AI**, including AI-assisted development and AI-integrated applications.

Campus Training & College Engagements

- **Bengaluru:** Delivered **Java, DSA, problem-solving, and coding** programs at KSSEM, KSIT, Global Academy of Technology, MVIT, and Cambridge.
- **Kurnool:** Conducted advanced **DSA using Java** and industry-oriented coding training at G. Pulla Reddy Engineering College.
- **Coimbatore:** Delivered **Java, DSA, programming fundamentals, and problem-solving** workshops at Karunya Institute of Technology and Sciences and KPR Institute of Engineering and Technology.
- **Full Stack & AI Workshops:** Conducted workshops across multiple colleges on **Java/Python Full Stack, AI, Generative AI, and Agentic AI**, including AI-integrated application development.

Technical Skills

Programming: Java, Python, OOP, Collections, Exception Handling , Multi-Threading

DSA & Problem Solving: Arrays, Strings, Linked Lists, Stack, Queue, Hashing, Recursion, Searching, Sorting , Dynamic Programming , Tree , Graphs.

Full-Stack Development: Java Full Stack, Python Full Stack, Spring Boot, REST APIs, HTML, CSS, JavaScript, React, MySQL.

AI: Generative AI, Machine Learning Fundamentals, LLMs, Agentic AI

Tools: Git, GitHub, VS Code, Eclipse, Postman, LeetCode, HackerRank

Projects

UML Visualizer **Mar 2026 – Apr 2026**
Web Application *Live Demo*

- *React 19, TypeScript, React Flow, Tailwind CSS, Zustand, Framer Motion, ELK.js, Vite.*
- Developed an interactive **UML diagram visualizer** for creating and visualizing object-oriented programming concepts.

DSA Visualizer **Jan 2026 – Present**
Interactive Learning Platform *Live Demo*

- *React 19, TypeScript, Vite, Tailwind CSS, Zustand, Express, Node.js.*
- Developing an interactive **DSA visualization platform** that demonstrates data structures and algorithms through step-by-step execution.

Food Delivery App **Feb 2026 – Apr 2026**
Full-Stack Web Application *Live Demo*

- *Java (Servlets, JSP), MySQL, HTML, CSS.*
- Built a full-stack **food delivery platform** supporting food management, coupon discounts, multiple payment workflows, and order management.

AI Travel Planner **Oct 2025 – Dec 2025**
AI-Powered Web Application *Live Demo*

- *JavaScript, React, Firebase, REST APIs, Gemini API.*
- Developed an **AI-powered travel planning application** for organizing personalized travel plans and trip-related information.

Education

Rajeev Institute of Technology **2020 – 2024**
B.Tech in Computer Science *Hassan, Karnataka, India*
